WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

Application No. 10/055,817

Filed: January 23, 2002

I hereby state:

(i). I recently became the attorney responsible for United States Patent Application No. 10/055,817, filed January 23, 2002 (currently abandoned), and for United States Patent Application No. 11/203,573 filed August 9, 2005 (currently pending). Upon a review of the file history of these applications, on or about April 16, 2009, the following was noticed.

(ii). On August 9, 2004 a final rejection was received in United States Patent Application No. 10/055,817. In response to the final rejection, an Amendment After Final with a petition for a three month extension of time and a Notice of Appeal to the Board of Appeals was filed on February 9, 2005. The Amendment After Final did not place the application in condition for allowance and an Advisory Action dated March 21, 2005 was issued in the case. A copy of the Notice of Appeal is enclosed herewith.

iii). The next entry in the file is a Transmittal Letter dated August 9, 2005 requesting a 3 month Extension of Time in order to file a Continuation Application. The Transmittal Letter contained a general authorization to charge additional fees. A copy of the Transmittal Letter dated August 9, 2005 is enclosed herewith.

iv). A continuation application claiming priority through United States Patent Application No. 10/055,817 was filed via EXPRESS MAIL on August 9, 2005 and was assigned United States Application No. 11/203,573 and afforded the EXPRESS MAIL deposit date as its filing date. A copy of the filing receipt for United States Patent Application No. 11/203,573 is enclosed herewith.

v). The attorney who was in charge of these applications during this time (Soma Simon) is no longer a member of the department.

(vi). On or about April 16, 2009 I was reviewing the file histories of these applications and noticed that in order for United States Patent Application No. 11/203,573 to be co-pending with United States Patent Application No. 10/055,817, the last Transmittal Letter submitted in Application No. 10/055,817 should have requested a 4 month extension of time from the Notice of Appeal (not the 3 month extension that was indicated). A check of the records for our Deposit Account indicated that the Patent and Trademark Office did not provide for an additional month extension by charging an additional fee.

(vii) No notice has been received that would indicate the claim to priority for United States Patent Application No. 11/203,573 has been jeopardized. In fact the United States Patent Application No. 11/203,573 is currently indicated on the United States Patent and Trademark PAIR system as a currently pending application.

(vii). From the facts and circumstances outlined above, all of which I believe to true and accurate, I contend that, United States Patent Application No. 11/203,573 became unintentionally abandoned because an incorrect extension of time was inadvertently petitioned for in the parent application. In order to preserve the claim to priority of United States Patent Application No. 11/203,573 to United States Patent Application No. 10/055,817, applicants petition that United States Patent Application No. 10/055,817, be revived in order to establish co-pendency with Continuation Application No. 11/203,573.
